Selfkant, October 18, 2022

## **In the military complaints process**

**of ...**

**and the...**

I am also sending a link to an article from the portal corona-blog.net from October 15th, 2022 entitled "Scandalous: Pfizer confirms EU Parliament, effectiveness for transmission from person to person never tested", in which the decisive point for the survey by Janine Small, Pfizer President for International Developing Markets, included by politician Rob Roos in the "European Parliament Special Committee on the COVID-19 Pandemic" on 10/10/2022:

<https://corona-blog.net/2022/10/15/skandaloes-pfizer-confirmed-eu-parliament-efficacy-for-transmission-from-human-to-human-never-tested/>

The question from Rob Roos can be found here from minute 49:55, the answer from Janine Small from minute 58:42.

The statement referred to is apparently not (or no longer) contained in the video link sent yesterday.

As a precautionary measure, reference is made to another article on the subject on tkp.at from October 11, 2022 with the headline "Pfizer confirms before the EU Covid Committee: Covid vaccination card was based on a big lie", in which Janine's answer of interest here Small is included:

<https://tkp.at/2022/10/11/pfizer-vertaeigt-vor-eu-covid-ausschuss-covid-impfpass-beruhte-auf-grosser-luege/>

The Respondent should finally admit that the introduction and maintenance of the Covid-19 toleration obligation can no longer be justified.
